

BCI TECHNOLOGY

Building the Future

Our Purpose

To make a positive difference to our clients, candidates and colleagues.
We assist our clients to achieve their business goals by hiring the right people.
We help the best industry leaders to fully maximize their career potential.

Our Mission

Technology today is evolving at a rapid pace, enabling faster change and progress, causing an acceleration of the rate of change. However, it is not only technology trends and emerging technologies that are evolving, but a lot more has also changed, making IT professionals realize that their role will not stay the same in the contactless world tomorrow. Organisations and IT professionals & executives need to stay current with the emerging technologies and technology trends. Our mission is to help these organisations by providing the best-in-class IT professionals & executives ensuring the successful implementation and operation of these new technologies.

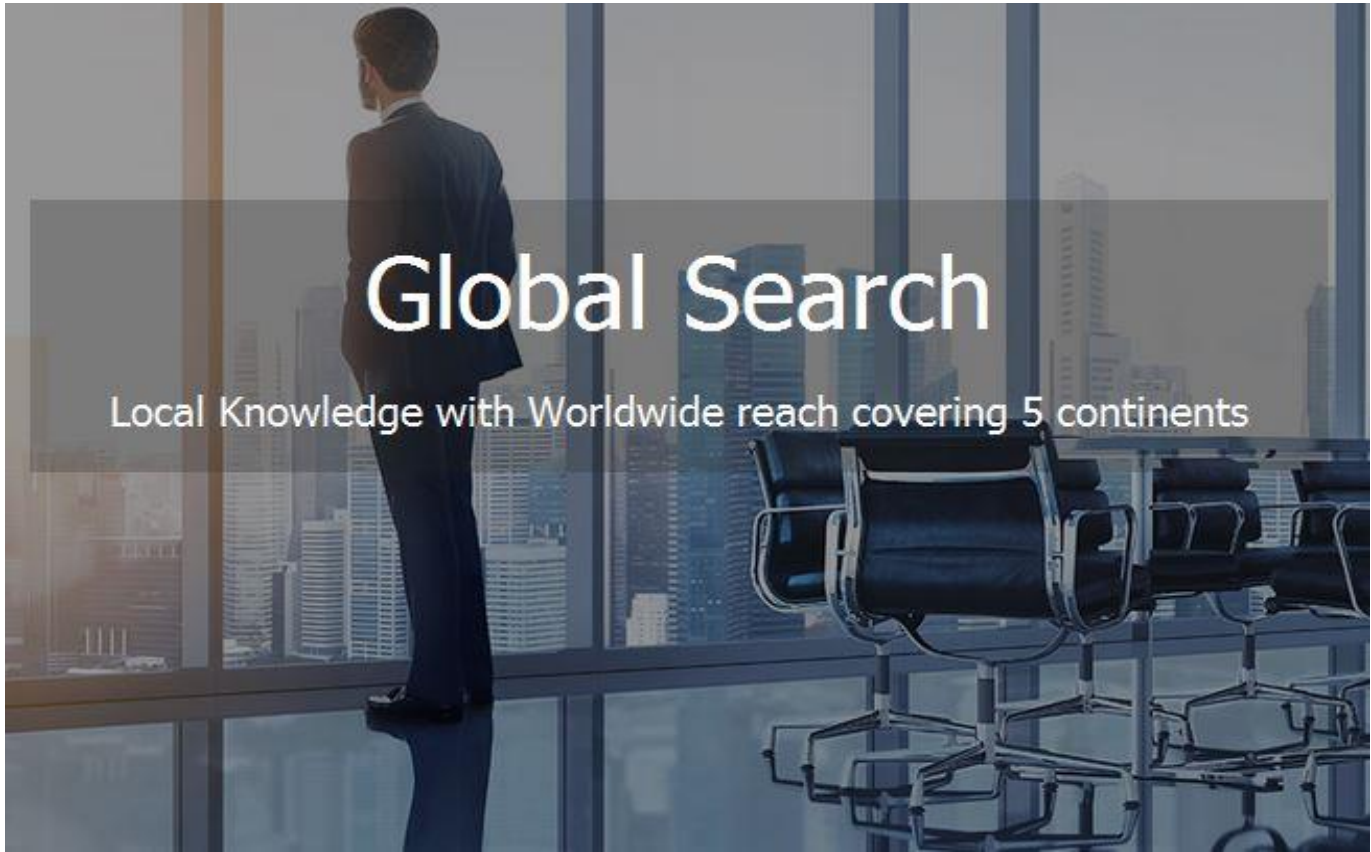

Our History

BCI Technology is the technology division of BuildConsult International, established in Dubai in 2006 and is now one of the region's leading Executive Search & Recruitment firms. We specialise in all aspects of the Built Environment & Technology sectors involved with major real estate development, civil engineering infrastructure and technology projects from the concept stages, financing, delivery and operations.

Our area of expertise is recruiting for the Built Environment and Technology sectors, covering the recruitment of executives and C-level positions such as CIO, CTO, Heads of IT within industry sectors such as Technology, Real Estate & Property, Banking & Finance, FinTech, Commerce, Logistics, Oil & Gas and Civil Engineering.

To date and over the last 20 years based in Dubai, U.A.E. we have been fortunate enough to have partnered with many of the world's leading global corporations and regional conglomerates, government & semi-government organisations and real estate developers responsible for the development of iconic destinations and smart cities.

Global Search

Local Knowledge with Worldwide reach covering 5 continents
